

ELS3 Electric height adjustment
for sit-to-stand workplaces

ELS3 Electric lifting columns at a glance

With the electrical lifting column ELS3 from SUSPA you can easily change your working position from sit to stand. The main features of the lifting columns are elegant design, quiet movement and a long adjustment range. All ELS systems have the option to have collision detection, which will stop the system automatically if an obstruction is detected.

Electrically adjustable table base frames

The striking feature of the SUSPA table frame is its solid design. It is suitable for a wide range of applications and easy to assemble. The frames were specifically designed for our ELS3 range of adjustable legs and can be used with different legs, controller or switches.

The adjustable table base **VariFrame** comes with a split cross beam which is variable and can be adjusted to different table top sizes.

Accessories

The highly efficient control boxes have a flat and compact design. In combination with the switches they guarantee a reliable and economical operation of the tables.

COMPACT controller

- low standby power consumption: $\leq 0,3$ W
- Soft-Start and Soft-Stop
- overload protection
- weight: 418 g / 523 g (3-leg-controller)
- dimensions: 264 x 103 x 37 mm
- input voltage: 230V / 50Hz
- output voltage: 288 VA (2-leg) 24 VDC / 360 VA (3-leg) 24 VDC
- operating time: 10 % at maximum load (1 min / 9 min)
- controls for EU- and US-voltage available
- external sensor collision detector possible with LOGIC-CONNECTOR

SMART controller

- low standby power consumption: $\leq 0,3$ W
- Soft-Start and Soft-Stop
- overload protection
- small size and flat design
- weight 305 g
- dimensions: 186 x 100 x 30 mm
- input voltage: 230V / 50Hz
- output voltage: 216 VA (2-leg) 24 VDC
- operating time: 10 % at maximum load (1 min / 9 min)
- controls for EU- and US-voltage available

Communication and Connectivity LOGIClink

LOGIClink provides connectivity and control, allowing for communication and customization of the user's work environment.

Power cable

- available for the control boxes COMPACT and SMART for different countries

Switches

We provide solutions for an installation below the table and within the table top. From a simple hand switch with Up/Down function to a comfort switch with four memory functions and display – all operational elements convince through their surface design and the pleasing haptics.

Hand switch Up-Down HSM-OD-2-LD

Hand switch Memory HSU-MDF-4M2-LD

Hand switch Up-Down TOUCHbasic DN

Ergonomics at the workplace

Over the last few years, SUSPA has become established as one of the leading suppliers of electric height adjustment systems. The topic of ergonomics at the workplace has increasingly gained importance in companies as well in recent years.

Since more and more people are experiencing back problems due to a lack of movement, it is not only the personal well being that is affected, but there is also enormous economic damage done through absences from work. The best way of countering the lack of movement in the office is to use sit-stand desks.
