

# HUCK 2022 PNEUMATIC BLIND RIVET TOOL

The 2022 Pneumatic heavy duty blind rivet tool is a lightweight, high speed tool that is well suited for both production and maintenance/repair applications where blind fasteners are used. It features a long stroke, in-line piston for production speeds of up to 30 assemblies per minute. The 2022's ergonomically designed handle and light weight minimise operator fatigue.

Weight: 2.4 Kg

Max. Air Pressure: 6.2 bar

Maximum Operating Temperature: (51.7° C)

Stroke: 26mm

Max. Pressure: 7.5 Bar

Body Material: Metal

Height: 32cm

Nozzle (sold separately)

Magna-Lok / Magna Bulb / Huck Lok / Auto Bulb / Magna Tite rivets can be applied.
