

HUCK SF32 HYDRAULIC RIVETER

The SFBTT series, Huck's proprietary, advanced forged advanced tooling for BobTail fasteners, reduces the force required to install each fastener, making the assembly process faster and easier. More compact and lighter than previous Huck lock bolt production tools, BobTail assembly tools offer the operator greater flexibility and extended reach into difficult areas. For tight, confined-space applications, forward-tilt BobTail tools allow the operator to position their hand at a safe distance from the work structure during assembly.

Weight : 6.58kg

Tensile Capacity : 147kND

Rotation Pressure : 483 bar

Maximum Operating Temperature : 51,7° C

Power Source : Powerig Hydraulic Unit

Total Height : 215.39mm

Head Length : 142 mm

Stroke : 50.80 mm

BOBTAIL rivets are applicable.

Nose assemblies, hydraulic power equipment, hose assembly and nose tips are sold separately.
