- Smooth operation enhances the user experience
- Adjust the display without knobs or tools
- Holds securely in every position

Installation

1. Determine desired mounting location
2. Mark upper and lower mounting holes. For ideal hole location, mark upper hole first, then use a plumb line to ensure vertical orientation between the upper and lower holes
 - a. For thru-bolt installation, drill or punch holes as indicated on trade drawing and install using 1/4-20 or M6 screws.
 - b. For installation in wood studs, drill a 3/16 inch pilot hole and install using a 1/4 inch lag bolt. Do not over tighten.
 - c. For compliant mounting surfaces (gypsum board, etc.) use optional wall plate, sold separately.

Caution: Because of the wide variety of available wall materials, it is the installer's responsibility to ensure that the materials, and structure to which the arm is mounted, and the hardware selected will provide adequate support.

3. Slide on mounting hardware covers and attach display using manufacturer's recommended hardware.
4. Route wiring as needed
