PK Lock Cores
SOUTHCO® Key-Choice System

- **Lock cores ordered separately**
- **Greater flexibility in locking requirements**

Material and Finish
Zinc alloy, chrome plated, black powder coated or with a stainless steel scalp

Key-Choice System

This icon indicates that a product is compatible with the *SOUTHCO®* Key-Choice System

For other lock core styles visit *www.southco.com*

For additional details on the *SOUTHCO®* Key-Choice System go to *www.security.southco.com*

The *SOUTHCO®* Key-Choice System features a common lock core that fits a wide range of *SOUTHCO®* latches.

This system allows for the independent selection of the correct latch for your application and the lock core required to manage the security of the end product. The guide below shows each of the latches in the *SOUTHCO®* Key-Choice System that can be purchased without the lock core installed.

Lock cores are sold separately which provides:

➲ **The option to configure multiple latch styles with the same keying option**
➲ **The ability to configure the same latch style with multiple keying options**
➲ **Inventory reduction by managing multiple keying options with the lock core, while latches remain without the core installed until keying assignment is desired**

Latches in the *SOUTHCO®* Key-Choice System

Compression	Cam	Push-to-close	Locks

Key code selection

KA- Keyed Alike:
All lock cores are the same key code

KD- Keyed Differently:
Multiple key codes provided in a non-master key system

MKKD - Master Keyed, Keyed Differently:
Multiple key codes provided in a master key system

Notes
Part Number includes 1 lock core and 2 keys

Lock Core Installation for CM-3 and CM-6 only (see page 188)

Ramped area of housing

Flats of lock extender

01 (Clockwise)

Lock Core Installed *(01 Rotation)*
Unlocked Position — Locked Position

Southco logo on this side of housing

09 (Counter-Clockwise)

Lock Core Installed *(09 Rotation)*
Unlocked Position — Locked Position

Southco logo on this side of housing

Installation Notes

1. Prepare panel and install latches shown on page 188.

2. Latch should be in unlatched position. The flats of the lock extender should be aligned with the flats on the housing.

3. Take a lock core and orient the brass wafers to the internal ramped area of the housing. Push lock core into housing until it stops.

4. Insert key into lock core and turn to verify lock core is fully seated and operating properly.

5. Install cam.
